Gov. Carter May Be Candidate For Second Term

Sargent To Look Up Matter Of Filipino Laborers

SAYS HE NEVER HEARD OF IT BEFORE

Commissioner Sargent intends to interest himself in looking up the matter of the importation of Filipinos to the islands, on which A. F. Judd has been working for some time past in the Philippines. Apparently this scheme is a new one to Sargent. At least, he stated that this morning was the first time he had ever heard about it. He was much interested and said that he intended to give the matter his immediate attention.

The matter was brought up when a reporter asked the Commissioner what he thought of the plan of bringing Filipinos to the local plantations. "Who is bringing them?" asked Mr. Sargent, sharply.

"Why, A. F. Judd," answered the reporter.

"And who might this Mr. Judd represent?"

"The Planters' Association."

"This is all news to me," said Mr. Sargent. "I had not heard of this before this morning. I shall immediately look up this matter."

The fact that the Commissioner was unaware of the work done by Judd on the Filipino immigration matter is rather a surprising one, as the planters have not in any way kept the matter from the knowledge of the public. It has been spoken of extensively in the local press, and still more in the papers of Manila, where the scheme was opposed by the Chamber of Commerce and others, while the Board of Commissioners refused to grant the request of that body to put a stop to its execution.

"I don't know anything about the Filipinos," said Sargent further, when asked about his opinion on the plan. "Except what I heard on board the Korea from gentlemen who are engaged in big enterprises in the Philippines, and they all told me that the Philippines were in need of immigration. Furthermore, I understand that there are in the Philippines immense tracts which need labor for their development."

"I say now, as I always have said quite plainly, that what these islands need is labor which will become Americanized and which will take up its part in aiding in the development of these American lines."

QUESTION OF PAY THE OBJECTION

"You cannot get labor from the mainland until you pay the wages which labor is being paid there."

With this one brief sentence Commissioner Sargent summed up his answer to the question as to what he thought of the proposition of furthering the Americanizing of the islands in the quickest manner possible by deriving labor from the mainland and thus evading the necessarily lengthy process of Americanizing labor imported from foreign territory.

"Labor in the United States is being paid good wages," said Sargent, "and you cannot expect any man to leave one place for another where the pay is smaller."

"What about the 'army of unemployed'?" asked the reporter.

"There is always a great number of (Continued on Page 7.)"

RAILROAD SUE BY JAMES E. FULLERTON

James E. Fullerton filed a suit for \$10,000 damages this afternoon against the Oahu Railway and Land Company. He complains that on November 4 he bought a ticket from Honolulu to Ewa Mill station and return, and rode to Honolulu, where he stopped. He states that he attempted to use the return ticket later in the day but the conductor said that it was not good and expelled him from the train.

HELEN TO GO TO ASYLUM

Helen Kalei Aona was arrested again yesterday on another warrant sworn out by the little second hand man, Matthews, whom she has for some time kept in a state of terror. Helen was awaiting trial on the charge of threatening to kill the little man, and has been having all sorts of fun with him, chasing him inside his shop and scaring him out of a week's growth every time she saw him. Yesterday she broke down his door, he says, and scared him out of two weeks' growth.

It is probable that Judge Whitney will send her to the insane asylum tomorrow. Her husband, Aona, returned this week from Hawaii and wishes her sent to the asylum, saying that he is willing to pay her expenses there. Dr. Emerson says that that is undoubtedly the place for her, so it is probable that she will be sent over.

There will be a concert and dance at Waiialua on Saturday night at which Kaula's orchestra will furnish the music. The orchestra will play at the hotel on Sunday.

The services at St. Clement's Church on Thanksgiving Day will be: Holy Communion at 7 a. m.; morning prayer and sermon, 10 a. m.

Counting Votes Cast For Sheriff In Fifth of the Fourth

NO DECISION GIVEN BY THE SUPREME COURT

It was expected that when the Supreme Court session this afternoon commenced a decision in regard to a recount would be given, but contrary to what was thought Sheriff Brown was again put on the stand, where, in response to questions from Chief Justice Frear, he reiterated his testimony of the morning in regard to the Fifth of the Fourth. He stated that he had been told that the twenty ballots which he had spoken of as being illegally counted were all for Laukae.

The Court then called on A. T. Brock, chairman of the Board of Inspectors of the Fifth of the Fourth for an identification of the ballot bag and ballots. There was some question raised in regard to the sealing of an envelope containing some of the ballots, but the court decided not to pass on the question at the present time.

The envelopes were then opened and the count commenced, the Court taking charge of the ballots protested against and stating that the decision as regards their being properly counted would be reserved till the count was finished.

Up to 2 o'clock protests had been made against eight ballots, four by each side.

When the Supreme Court meets this afternoon at 2 o'clock their decision in regard to a recount of the votes cast for the office of County Sheriff will probably be announced. If a recount is not ordered there will be a great deal of surprise among the attorneys of the city who have followed the case.

The entire morning was taken up with testimony from Sheriff Brown, who was called to the witness stand to tell the court the information which led him to believe that a recount would show that he had been elected.

He testified that he had been told by Sidney Johnson that in the Fifth Precinct of the Fourth District there had been twenty ballots counted for Laukae which should not have been allowed by the inspectors, and that Johnson had made an affidavit to this effect. These votes he said he understood were marked with a cross in the space in which the candidate's name was and not in the space which was left for the purpose. These votes he said he thought should not have been counted but were allowed by the inspectors. (The Fifth Precinct is the one in which Costa was supposed to rule and there was an unexpected falling off in the Republican vote which has never been fully explained.)

At Waiialua he stated the returns of the election inspectors showed that there had been 110 votes cast for him while the County Clerk returns showed that there had been 109.

In Pauoa he said that he had been told that there were a number of ballots on which there were erasures and that the inspectors had held that these votes should all be counted and that their opinion of the intention of the voter should be what they ruled by.

At the Vineyard street precinct he stated that he was told that there were two votes counted for Laukae which had been marked so that they were distinguishable. In a number of other precincts he stated he had been told of mistakes which had been made and he stated that he had brought the complaint before the court asking for a recount, in good faith, believing that he had been elected under a correct count of the votes.

Attorney Kinney tried to have Sheriff Brown produce the Johnson affidavit but the court ruled that it was not going into the matter to this extent at the present time and the document was not offered as evidence.

Carter May Run For A Second Term As Governor of Territory

HAS NOT FULLY MADE UP HIS MIND AS YET

Governor Carter stated to a Bulletin reporter this morning that under certain circumstances, which he refused to give for publication, he might be a candidate for a second term when the present term had expired a year from now. He said that he had not considered the matter and he would not make any decision at the present time.

In speaking of the matter Governor Carter said:

"I have not made any announcement of my candidacy and do not intend to do so. I have not yet decided whether I shall be a candidate for a second term or not. Under certain conditions I would be, but there are many matters which may come up between the present time and the date when my term expires, as that is nearly a year away. The Legislature will meet between now and that time and it is hard to say what will come up."

"I have no doubt but that some of those in this city who do not like me would be glad to prepare an official campaign for me and would also be glad to see me step into it at the present time, but as far as that goes I think that I will wait for a short time before accepting their courtesies. When the time comes I shall be glad to make my decision but until then I do not think that I am called on to say whether I shall try for a second term or not."

"As I said before, it is too soon for me to make any statement in regard to the matter and I do not feel called on to do so. When there is nearly one fourth of my term left there seems to me to be plenty of time left for me to think over the matter and then to say what I will do."

Secretary Jack Atkinson was asked what he would do in case Governor Carter should be a candidate for a second term. Atkinson has been mentioned prominently for Governor lately and is considered by some to have obtained an inside track for the position. He was very non-committal in regard to the matter and would make no certain declaration. He said:

"I have nothing to say in the matter. I have never announced myself as a candidate for the office of Governor."

BERGER AND BAND MAY SUE ANGEL HUI

Captain Berger stated today that in behalf of the band boys he might institute a suit against the Hui of "angels" which backed Joe Cohen in his venture. The case would be for the payment of the last four months' salaries, amounting to about ten thousand dollars.

The captain said that as he was not authorized to say much, he would have to see the boys and consult with them as to what they would do in the matter. He said the story of his stopping at the first class hotels while away was untrue.
